PROFILE

Informatics Engineering graduate from Universitas Islam Riau with intermediate proficiency in PHP, Python, and JavaScript. Experienced across the full stack - from Laravel/Vue web applications to Power BI data dashboards - with interests in web and mobile development, artificial intelligence, and data analysis. Active in campus and community organisations and experienced as a teaching assistant, with a collaborative approach and a strong drive to keep learning.

EXPERIENCE

Assistant - Regional Strategy & Finance Nov 2025 - Present
PT Mutualplus (outsourced) @ BRI Regional Office II Pekanbaru

Building performance-monitoring dashboards for regional and branch offices in Power BI. Designed and built a monitoring dashboard from scratch with Laravel, Vue.js, Inertia.js, and PostgreSQL. Produced 2026 market-share forecasts to support regional strategic planning.

Teaching Assistant Oct 2023 - Jun 2025
Universitas Islam Riau

Supported teaching for eleven courses including Databases, Data Structures, Artificial Intelligence, Design & Analysis of Algorithms, Native Mobile App Development, Fuzzy Logic, and Machine Learning.

Chairman - PRIMATECH Programming Study Club Nov 2023 - Sep 2024
Universitas Islam Riau

Led the campus programming study club; also served as Organisational Supervisory Board member (HM Perhentian Raja) and Event Division Head for the student community-service camp (HMTI).

EDUCATION

B.Eng. Informatics Engineering GPA 3.76
Faculty of Engineering, Universitas Islam Riau

Thesis: Aspect-Based Sentiment Analysis of the 'Generasi Emas 2045' Discourse on Social Media using Latent Dirichlet Allocation (LDA) and BERT.
